

UDTS DOCTOR OF MINISTRY COHORT 2023

Looking Beyond Crisis:

Redefining Ministry for a Recovering World

Responding to crisis is an essential part of our pastoral vocation. Never has this been more vividly illustrated than in the changes we have faced, both personally and professionally, during these past few years.

This DMin cohort will focus on enabling pastors and church leaders to explore and examine the crises we have experienced and discover new ways for Christians to live out their faith in the years to come. We will study issues of leadership, identity, ecclesiology, and cultural relevance, while examining how our scriptural, theological, and historical foundations impact the ever-evolving church. Our goal is not to get back to normal, but to discover what new forms normal will take as we share and live out our faith in the future.
